

ABSTRACT

A method and apparatus for creating a computerized market for used and collectible goods by use of a plurality of low cost posting terminals and a market
5 maker computer in a legal framework that establishes a bailee relationship and
consignment contract with a purchaser of a good at the market maker computer that
allows the purchaser to change the price of the good once the purchaser has
purchased the good thereby to allow the purchaser to speculate on the price of
collectibles in an electronic market for used goods while assuring the safe and
10 trusted physical possession of a good with a vetted bailee.
